Just want to make sure that the screenshot I took of the provision in the state's order appeared in my last email? If you're reading this on an iPhone, perhaps it didn't show up. In case it didn't appear, here's what the provision says: "The Department reserves the right to request the implementation or funding of any additional measures necessary to protect public health or the environment including a biomonitoring program for residents of the Town of Hoosick and the Village." The June 3, 2016 order is the only order DEC has issued to Saint Gobain re Hoosick Falls. The other order DEC issued in June was to Honeywell only; it dealt with areas other than the McCaffrey Street and Liberty St. facilities and it has no mention of biomonitoring.

The only mention of that in DEC's June 3, 2016 consent order with Saint Gobain and Honeywell is this:

<image001.jpg>

So, unless Saint-Gobain or Honeywell voluntarily agreed to do or pay for such a biomonitoring program, DEC would need to take some new enforcement action if they wanted one or both companies to do or pay for such a program. DEC can't use the existing order to require it.
